DETAILED ACTION

Election/Restrictions

1. Applicant's election of claims 1-3, 5-9, and 14-19 in Paper No. 15 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-6, 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Miles (US 5228232).

4. Regarding claim 1, Miles discloses all of the features of the applicant's invention including a container 10 for holding fishing lures 18, each lure having a neck, a lower and upper segment (see figure 5 of Miles) comprising: a bottom 12,22, a continuous sidewall 28, 26, a retainer 16 comprising at least two parallel vertical members 46, 52, connected to said bottom, at least two barriers 58, each barrier extending perpendicularly from a respective vertical member and connected to said bottom and a first catch 50 in at least one of the vertical members for compressing an upper segment

of a lure 18 toward a lower segment of a lure extending along said bottom to hold the upper and lower segments of a lure stationary in the channel.

5. Regarding claim 2, Miles discloses a partition (see figure 2, opposite to and inside the container from element 70) perpendicular to the bottom, dividing the container into two portions.

6. Regarding claim 3, Miles discloses barriers 58 extending perpendicularly to the partition and forming a row of channels 60 within the sidewall on at least one side of the partition.

7. Regarding claim 5, Miles discloses at least one neck rest 56.

8. Regarding claim 6, Miles discloses that the catch 56 is from about 0.75 to 2 inches above the bottom (See fig 4).

9. Regarding claim 14, Miles discloses a plurality of catches 56 all vertically separated from one another.

Allowable Subject Matter

10. Claim 15 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

11. Claims 7-9 and 16-19 are allowed.

12. The following is an examiner's statement of reasons for allowance: The prior art of record, including that of Miles, does not disclose an insert that removably fits within
